HYBRID REALITY PLATFORM MARKETPLACE

New Apps Available

- Settlement Data Management
- Tunnel Data Management
- Asset Management
- Asset Tracking
- Booking
- Photo & Video Management
- Inspection Form Management
- Workflow Management
- IoT Data Hub
- Project Insights and Dashboard
- Messaging

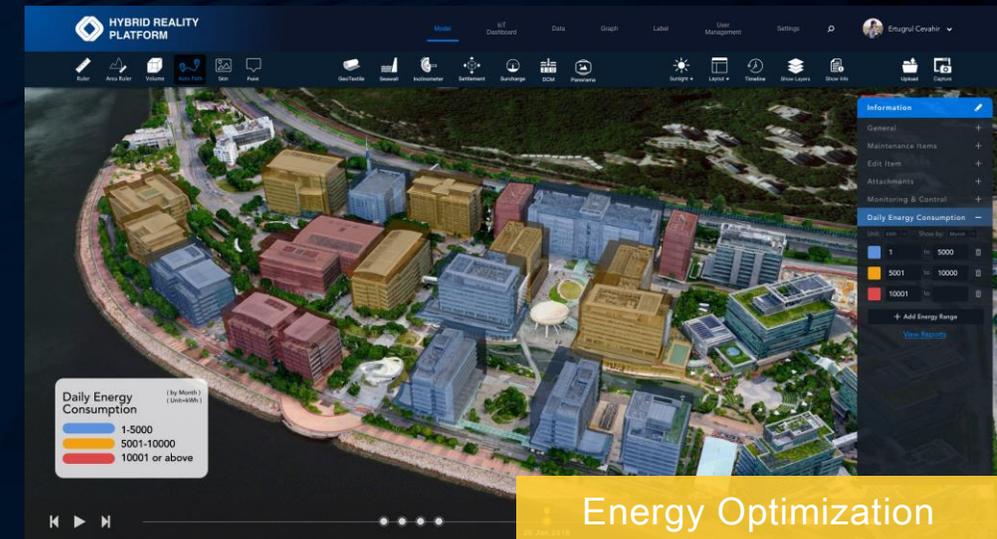

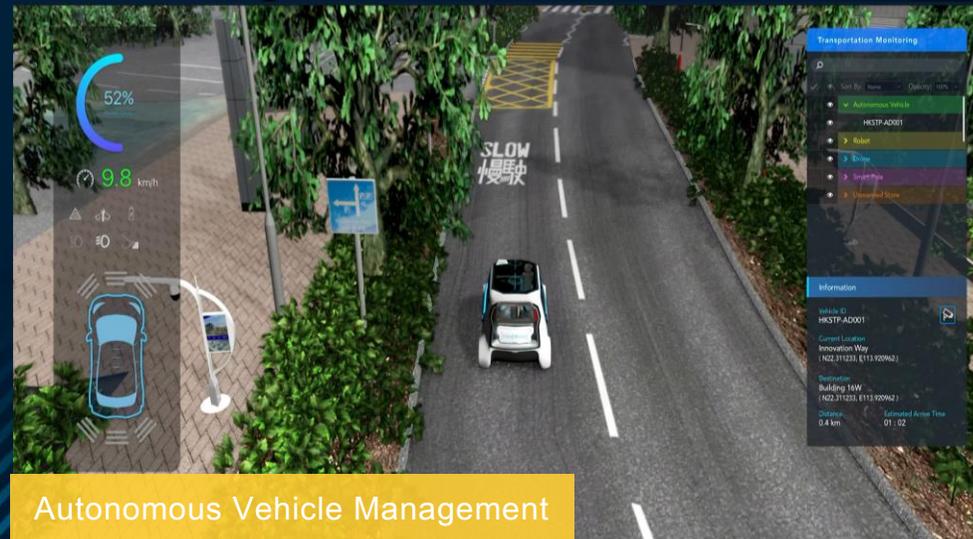

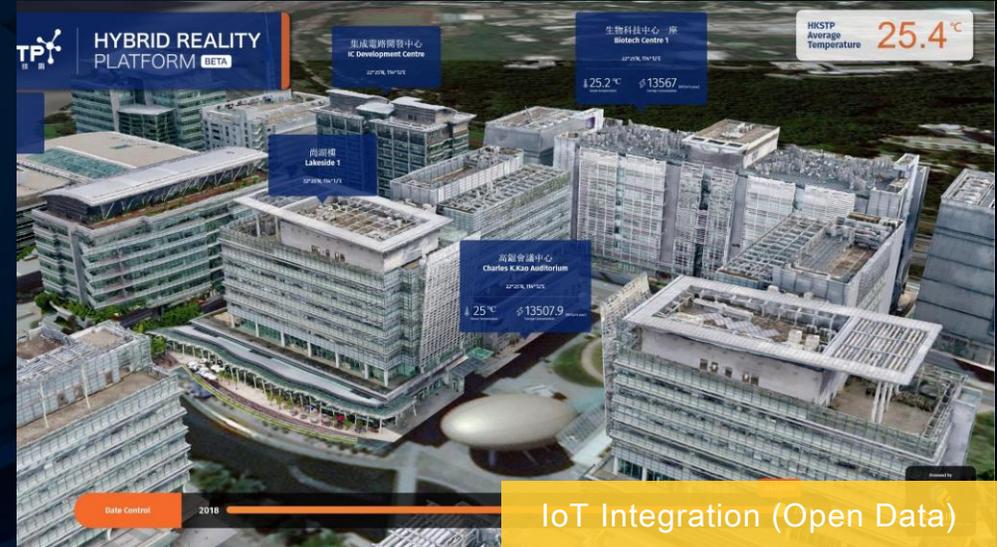

1.1) HRP - Basic Module

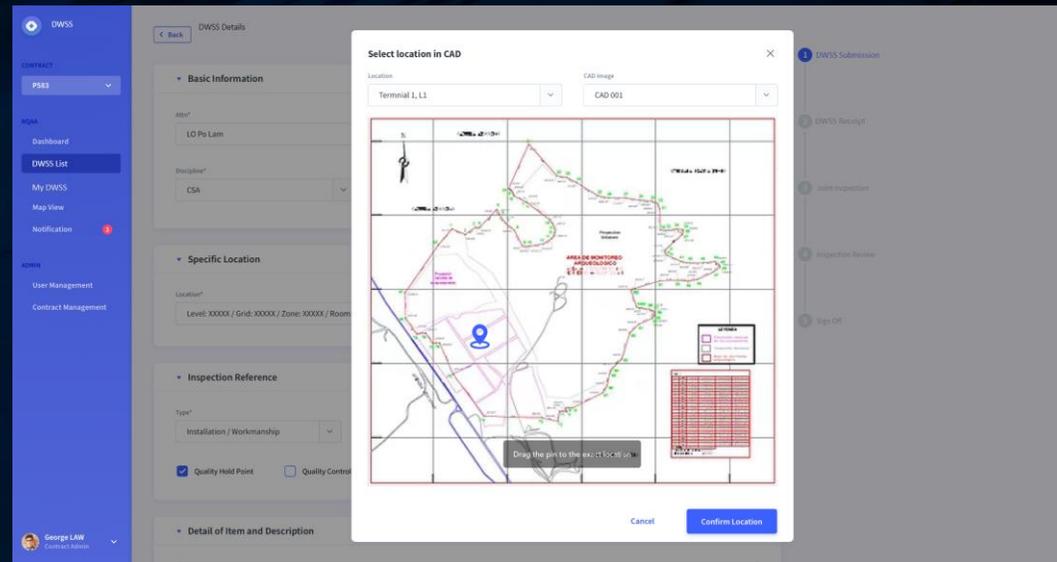

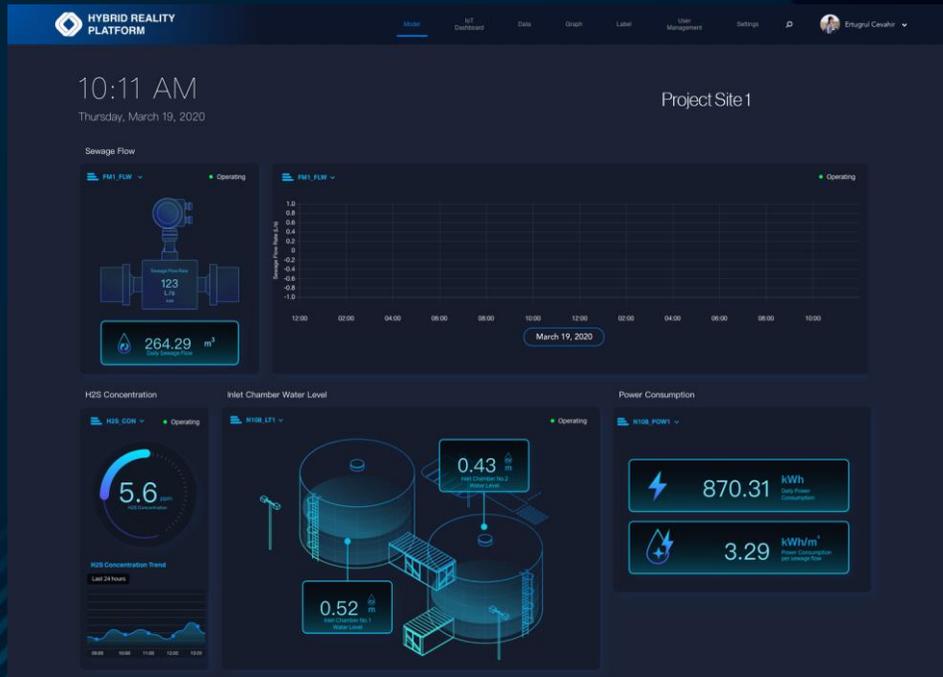

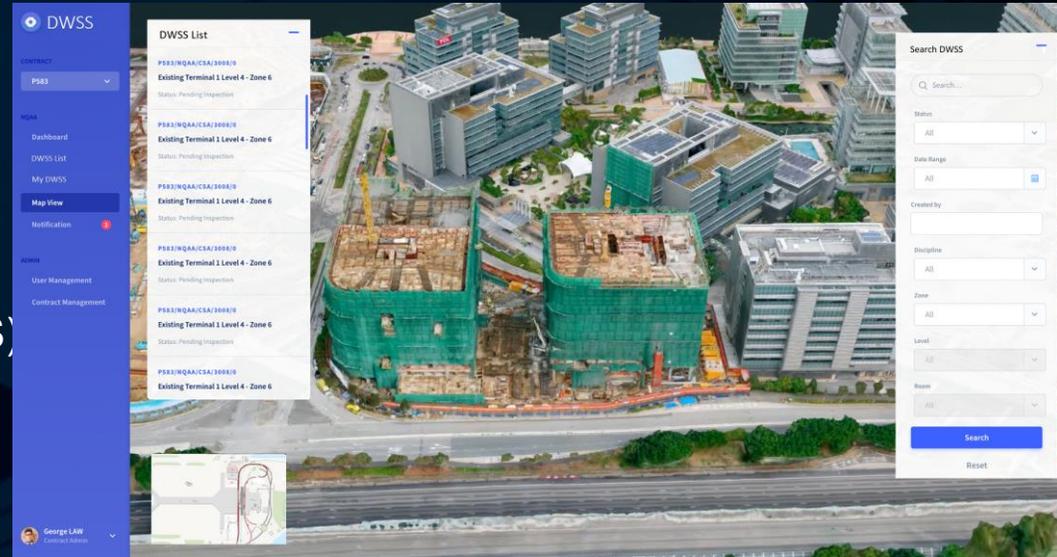

1.2) HRP - More Advanced Tailor-made Functions

1.3 HRP – Module-wise Development

- Digital Works Supervision System Module (DWSS)
- Smart Site Supervision System (SSSS)

2. Artificial Intelligence (AI) Application

AI-driven Modelling

- Open Street Map – “Wikipedia” of maps
- Leveraged HRP 4D Timeline function
- Facilitate future planning and construction works
- 3D City Map by Lands Department – be ready by 2023

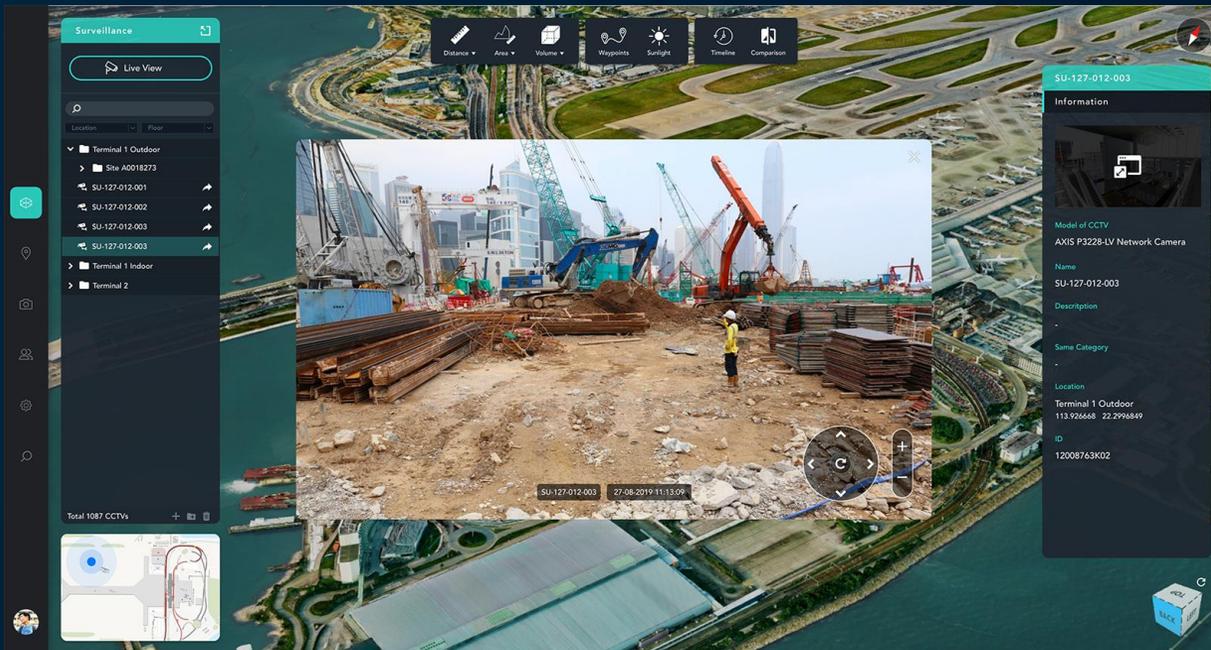

AI-CCTV Optimization

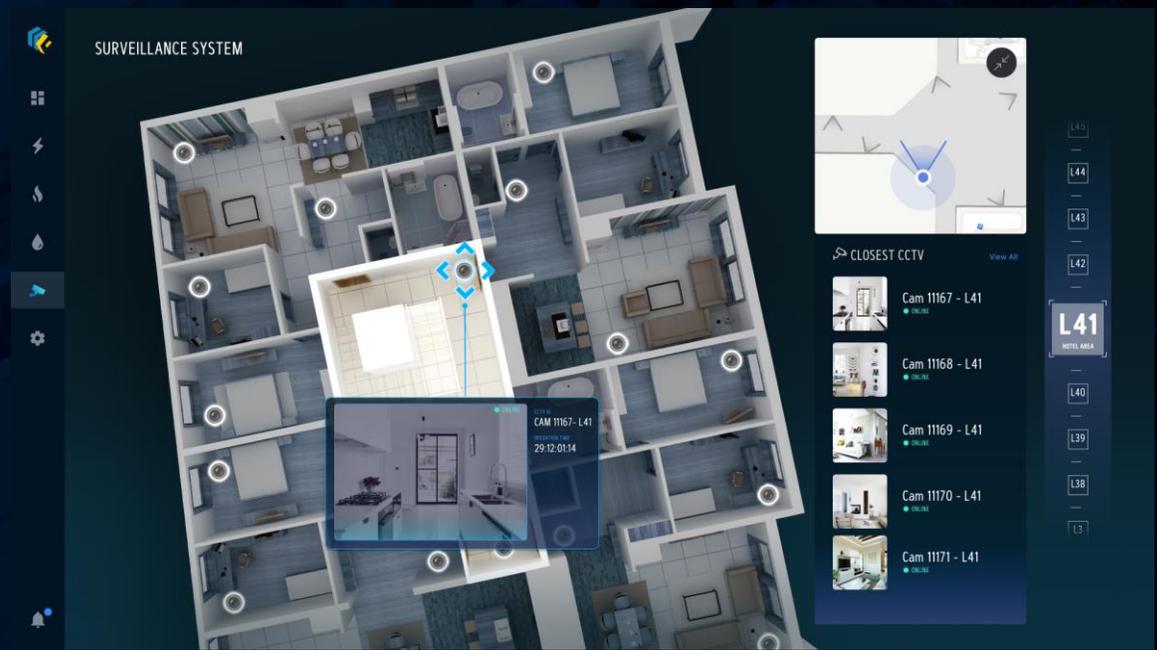

- With HRP simulation, configure the optimal placement for CCTV installation
 - Position, direction, FOV, angle, branding, clarity
 - Foresee possible blind spot
- Minimize the re-work time and capital

2. Artificial Intelligence (AI) Further Development

CCTV Planning & Live Streaming

Solution**

AWARDS

創新初創銀獎俾詠技術 助建智慧城市

獲得創新初創銀獎的俾詠技術拓展有限公司，利用大數據、移動物聯網 (IoT)、雲端等創新科技，結合建築資訊模型 (BIM)、地理資訊系統 (GIS)，研發建築業解決方案。公司開發出融合實地平台 (HRP)，透過專門為建造工程行業而設計的統一平台，方便行業管理大型工程或基建項目的所有資訊，不同持份者可在同一平台上回顧工程進度及進行更多分析，有助工程按預算和如期、甚至更快地完成。

俾詠技術的兩位創辦人分別來自建築業及科技界，工作經驗發現工程資訊流通和監管程度往往未如理想，因此在2016年開始合作構思解決方案。俾詠技術創辦人兼首席科技總監陳宇認為：「我們其中一個優勢是平台兼容三大科技：BIM、GIS，以及IoT。結合三大科技，在單一平台上使用，既方便行業管理工程項目，我們亦可以收集更多數據去評估和分析行業需要。」他分享，公司在開發技術過程中面對不少困難，「平台所涉的範圍甚為廣泛，包含不同技術層面，而且是一門嶄新的科技。公司初期創立只有數位同事，所面對的工作量和壓力都頗大，後來產品順利推至市場，便獲得以站穩陣腳，亦獲得客戶支持和肯定。公司逐漸增聘人手，以減輕同事負擔。」

業務發展主管黃澤陶在分享獲獎感受時亦不忙歸功於團隊同事，「全靠同事不眠不休地趕及將產品推出市場，公司才能走到這一步。今次獲得銀獎，對於公司上下來說，是很好的鼓勵，證明心血沒有白費。」

他們又指出，比賽令公司更了解到市場對產品的看法，不論是產品創新性和應用性，還是公司業務的發展前景，同時他們亦重新審視公司的發展方向，思考如何能更進一步滿足客戶的需要。

RECOGNITIONS

1. Collaborations with Lands Dept for HK 3D Digital Map
2. Invited Speech for Inno Portal by EMSD
3. HRP Development - Digital Twin for AAHK
4. Invited Speech for CITF Pre-approved Technologies Pilot Scheme by Development Bureau & CIC
5. Invited sharing for CRHK Programme
6. Partnership with IBM for Smart City Development
7. Collaboration with OGCIO
8. Smart City Forum Sharing
9. Media Coverage & Interview
